

DIAMOND X510-N Fixed antenna 8.3dBi (2m) and 11.7 dBi (70cm)

Fiberglass antenna Diamond X510-N, very high gain VHF-UHF, 5.2 meters high, for fixed use on 2 meters band (144 MHz) with a gain of 8.3dBi and in 70 centimeters band (430 MHz) with a gain of 11.7dBi. Equipped with a female N plug connector and 3 radians.

Antenna type: 3x5 / 8 C-Load wave (144MHz) and 8x5 / 8 C-Load wave (430MHz)

Length: 5.2m

Gain: 8.3dBi (144MHz) and 11.7 dBi (430MHz)

Maximum power: 200W

100% genuine Diamond X510N antenna guaranteed.

DATA SHEET

Antenna type: 3x 5/8 wave (144MHz) and 8x 5/8 wave (430MHz)

Reinforced fiberglass antenna outer shell

Length: 5.2m

Radians length: 52cm

Gain: 8.3dBi (144MHz) and 11.7dBi (430MHz)

Maximum power: 200W

Impedance: 50ohms

VSWR: Less than 1.5: 1

Wind resistance: 144km/h

Diameter of the mat accepted: 30mm to 62mm

Connector: N female plug

Diamond X-510 N antenna guaranteed 100% genuine

Weight: 2kg
